

SOLAR FLOOD LIGHT

SELF-BUILT HOUSING / COURTYARD / STORE / GARAGE / HOTEL / BASEMENT / FARMS

RG-HFL SERIES

FEATURES

- Monocrystalline silicon solar panel
- High Luminous LED
- Intelligent controller
- High Quality Lithium Iron Phosphate battery

Model		RG-HFL1200	RG-HFL1800
LED	power	150W	200W
	Color Temp	White- (6000- 6500K)	
	Luminums flux	1200lm	1800lm
Mono Solar Panel	Power	25W	40W
	Efficiency	> 18%	
	Life	25Years	
Battery	Capacity	3*6000mA	6*6000mA
	Life Cycle	> 2000cycles	
Waterproof level		Ip66	
Charging Time		4- 5H	
Working Time		10- 20H/ Day	
Height of installation		4- 5M	5- 6M
Distance of installation		< 10M	

SOLAR PRO FLOOD LIGHT, THE MULTIPLE-USAGE SOLAR LIGHT FOR ALL

RG-HFL SERIES

Separated type design

Separate the solar panel and lights for more installation situations and maximum conversion of the sunshine.

Brand accessories

Adopt brand lifepo4 battery cell with more than 2000 life cycles.

Intelligent system

Subverting the previous mechanical design , more sleek lines, more outstanding and upmarket shape.

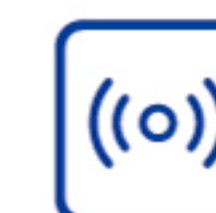

7 working modes

Sensor / Semi-induction/ 100% lighting mode/ 50% lighting mode/ 3-Hours lighting mode/ 5-Hours lighting mode/ 8-Hours lighting mode

Efficient solar panel

Adopt high efficiency monocrystalline silicon solar panel for better performance especially in the cloudy and rainy days.

Human radar induction

The interference of high harmonics and other clutter can be suppressed effectively
